

Press Release

Documation grow and expand their headquarters

30th April 2008: Documation is proud to announce the expansion of their Eastleigh based headquarters.

This recent expansion is a necessary move to accommodate the growing company. Founded in 1990, Documation is a leading provider of document management and workflow solutions in the UK today. A recent recruitment drive resulted in the requirement for new office space, as John Wallace CEO says:

“Our expansion into overseas markets and the natural growth of the company has lead to the employee count growing by 35% since the beginning of the year, so expanding our headquarters was a necessity. Having all our operations under one roof is extremely beneficial for the business, and means that we can now continue to deliver the high level of service and flexibility that our customers are used to.”

Documation have been based in Wessex House, Eastleigh since June 2001. Situated in Eastleigh’s busy town centre, Wessex House is the perfect location for Documation. Supporting Documation’s development in overseas markets, Southampton International Airport is within a five minute drive. Wessex House is also minutes from the South’s two major motorways – the M3 with access to London and the rest of the UK, and the M27 which opens up the whole of the south coast.

ENDS
